District Court will be in session to-morrow.

No stock report to-day, owing to the election in California.

There are six prisoners in the county jail and four of these are down sick.

We miss the Carson Tribune among our exchanges. E. J. attend to your mail boy.

Six teams are hauling ore from the Jones & Kinkead mine to the Auburn mill. This looks like business.

The Hebrews of Reno, Virginia Virginia city and Carson had a very pleasant picnic last Sunday at Bowers' Mansion.

Bismarck, the new correspondent to the Enterprise, is a fat one, and his name fits him about as well as "gentleman" would to Hutchinson.

The Methodist social, the Baptist strawberry festival and prayer meeting at the Congregational church are the church programmes for this evening.

A telegram from Mr. Cook to Mr. Nate Roff says that Finley Cook rested very easily last night, and that he is doing as well as could be expected. It is presumed that he will recover.

Rev. W. C. Gray will spend about ten days in Sierra valley. He will fish and be a hunter before men. Next Sabbath his pulpit will be filled by Rev. R. A. Ricker, of Truckee, an old pioneer in Methodism.

A Resolution.

The Virginia Board of School Trustees, at their meeting held last Saturday, passed a resolution to the effect that the parents of children attending the public schools in Virginia city, and others interested in educational matters, be cordially invited to visit the schools at any and all times between now and the close of the term, on the 30th inst, to satisfy themselves whether or not they are doing the good they should do. —Gold Hill News.

Our public school Trustees have passed no such resolution. They and the teachers of the schools desire parents and friends to visit the school departments, and thus evince their interest in the welfare and progress of the pupils and the cause of education. And not only between this time and the close of the public schools, but whenever the schools are in session.

REDUCTION IN PRICES.—June returns to the department of agriculture indicate an increase of fully three per cent. in the area planted in cotton. Messrs. Grey & Isaacson appreciate the fact, and have made their great reduction in keeping with the same, and while doing so, give their patrons full advantage of the fall in the price of wool, have made a general reduction in the prices of their cotton and woolen articles. 6-5-tf.

DELINQUENT NOTICE.—The delinquent notice of the Jones & Kinkead mining company, appears elsewhere. The delinquents are redoing and hence have not had time to attend to their assessment. There will be no particular danger of any one's buying their stock for two and a half cents. If you fondly hope so try it.

WIFE MURDERER.

Dr. Hutchinson of Reno Carves his Wife

From the Carson Tribune we glean the following particulars of a most tragic scene, enacted in the quiet town of Carson yesterday near the hour of 11 A. M. It appears that the domestic relations existing between Mr. Geo. R. Hutchinson and his wife were of a most unpleasant character. Mr. H. has been for several years an occasional dental practitioner in Reno, and made this place his headquarters, and generally his home. Several months ago his wife applied for a divorce, but the same, for various reasons, has never been granted to her. Their home here was often the scene of dissipation and quarrel, and if we are correctly informed, the doctor would give his frau a trouncing when in his judgment she needed such treatment. This small edition of hell upon earth was not conducive to conjugal felicity or to his health, and he eventually salied forth to the mountain fastnesses north of Reno to rusticate a few weeks. He would afterwards stick up his shingle in some small town, and by his tooth carpentry gain a few dollars. Mrs. H. a month or so ago went to Carson and started into the dressmaking business. But George grew restless, and wanted to have his little red-headed wife near his bosom. He went to the capital and called on her at the residence of Mr. Lewis, and after holding her on his knee for a time in fond embrace, he besought this gentle lady to return to his home and share with him what their hands might provide. She stoutly refused and his angry passions were suddenly aroused. He threatened to kill her, but she still refused to nestle at his side, or "stand in." Then the devil took a fresh hold of him and he clutched a knife and fork and proceeded upon his fiendish work. The knife, however, would bend and so he took the fork and thrust it into her breast, inflicting a quite severe wound. Throwing her upon the floor he drew his pocket knife and inflicted two severe gashes in the back part of her neck. She struggled and perhaps screamed, and in the tussle had her hands badly lacerated by the knife in Hutchinson's hand. Fortunately parties rushed to her rescue. He was hurried off to jail before Judge Lynch arrived, and she was placed under medical care. We learned to-day that she may recover, but her chances are yet very doubtful.

It is truly to be regretted that his lengthy form was not made to adorn a telegraph pole or a convenient tree. In this case, as it is generally so in cases of murder, both parties are more or less to blame, but while his wife did not bear the best character, it was plainly his duty to let her alone. We can but presume, however, that Hutchinson is partly crazy. But a few days ago he had a fit in Matt Parrott's gunsmith shop, and has given evidence that he was not only much troubled in mind and afflicted in body, but really at times was not wholly responsible for his acts. And yet if his wife dies we would hesitate to say that he should

Creation of the World.

A Dr. Somebody has been lecturing of evenings at Barnett's corner on Masonry. The lecturer holds that true religion is found only in that Order, and in it the clearest and most satisfactory conceptions of Deity are obtained. From this society the greatest good to mankind may be received, and a knowledge of the world's creation, the agencies employed and their operation in nature and in the universe most intelligently established.

That God, in creating the world, put in use three processes by which he made all things. These attributes of power are: the will, the memory and the understanding—all of which are intangible, immortal and omniscient. The word God is simply a corruption of the Saxon "goode," but in Masonry He is the Great Architect. Much diversity of opinion is ignorantly held in regard to the time which God employed in the creation of the earth, and divines cannot give a satisfactory reason why Deity was six days in the creation. The lecturer assured his street audience that the time of six days may be clearly understood from geometry, and was best understood by the ancient Egyptians. There are in geometry six forms of measurement, and only six. That Deity, being the great geometer, acted in harmony in time and action with these perfect forms, and was therefore just six days in completing this world. These forms are: 1st, the straight line; 2d, two parallel lines; 3d, the triangle; 4th, the square, most symbolical of justice; 5th, the circle, typical of eternity; 6th, the transverse circle. On the seventh day He rested. This was symbolical of centralization. And now the whole matter is clear and complete, perfect in all its parts and intelligible even to a school-boy. We are glad that the doctor is satisfied, but must express a serious doubt as to his satisfying any one else. Human conception cannot fathom the acts and purposes of Deity. The powers with which we are endowed are for application to the duties of the immediate present, and when man acts honestly and as intelligently as he can in the present he is clearly doing his duty.

SOCIAL PARTY.—The invitation social party is now a certainty and will be given in Kimble's hall next Friday evening. Professor Varney will be the leading musician. Complete arrangements will be made this evening.

THE CHINESE MUST GO.—So says J. Loewenthal, on Virginia street, adjoining Barnett's block, as he is preparing to make pants to order and guarantee a fit, for the small sum of \$6 and upwards and all other clothes at correspondingly low prices at the great I. X. L. Combination Store.

THE GOOD LOOKING BUT HONEST

RENO EVENING GAZETTE.

RENO, WASHOE COUNTY, NEVADA

WEDNESDAY..... JUNE 19, 1878

ANOTHER ANONYMOUS.

The *Enterprise* has changed the name of its Reno correspondent to "Bismarck." The special duty assigned to this correspondent seems to be a defense of every officer in this county, and a report to the *Enterprise* and the world at large every local dispute which may arise in Washoe and does not concern Storey. "Bismarck" says the reports of the grand juries and the resulting movements will ensure Democratic success this fall.

The opinion is almost universal that this Kilkenny cat affair is simply for political effect—to dethrone the present officers and elevate members of the opposing faction to the places.

The stately "Bismarck" and the *Enterprise* is informed that the "Kilkenny cat affair" is going to the Supreme Court without delay. And further, that in the above quotation a gratuitous insult is thrown at thirty-four men who are all "Bismarck's" superiors. The assertion made about political effect is entirely without foundation or reason, as also the idea of a tax-payer's ticket, which "Bismarck" has conjured up. The men he mentions have never signified such intention, and his manifest purpose is to slush anybody who opposes his belief or its friends.

"Bismarck's" utterances are not calculated to have any wonderful effect even when they come from his mouth, instead of that fertile pen. We are merely calling attention of the *Enterprise* to the fact that it is doing many worthy men an injustice by allowing prejudice and personal interest free speech in its columns. These matters are going to Court and all discussion ought to cease—especially anonymous insults through the *Enterprise*. The Republican party will do well enough this year, notwithstanding the gloomy predictions of "Bismarck" and the hopes of all his friends.

CONGRESS AND THE CHINESE.

Congress will in all probability adjourned to-night at 6 p.m., and as yet the dispatches have not informed us of decisive action on the Chinese question. It has been expected, however, that such action would be had before adjournment. The committee on education and labor, reported a bill which restrict the number of mongolians to be landed from any one vessel to fifteen. Willis was recognized by Speaker Randall, for the purpose of moving a suspension of the rules and passing the bill. Speaker Randall has also afforded like recognition to Messrs Page and Davis, of California. The programme indicated that if Willis failed to carry his motion Page or Davis would move to concur in the Senate resolution advising President Hayes to restrict Chinese immigration by direct negotiations and modifications of the Burlingame treaty. It would have been very unfortunate if under the existing feeling, Congress should fail to notice the only claim which Western people have made. There is a desperate class, and there is an honest class, now suffering from the Chinese presence among us. A concurrence in the Senate resolution will probably be the means of important modifications, and we are glad to notice that the House has endorsed the resolution. Should it prove imperative we may have trouble on the Pacific coast. The evil of Chinese immigration is admitted, and honest white men have a right to demand its correction.

EDITORIAL NOTES.

Our Austin correspondent said recently that the metropolis of Lander was not yet built in the days of the rebellion. The *Reveille* very properly makes correction, and refers us to Gridley and his sack of flour, which netted such a handsome sum for the sanitary commission. Gridley did good service as did also the purses of Austin people. It is well to remember it.

The *Sentinel* is reminded by the Bannock outbreak, of the White Pine Indian war, and believes there will be relief bills again this winter. While finding some consolation in the plethoric condition of our State Treasury, the *Sentinel* believes the general government ought to pay the expenses. It does seem a little out of time that States should pay for the result of Howard's prayer policy.

The *Morning Appeal* comes out in favor of Connor for Governor and gives this as his record:

When a lad, in Texas, he joined the patriot forces and fought for the independence of that Republic. When the Mexican war broke out he hastened to enlist. He fought until the triumph of the American arms was ensured. He came to California in early days. When the war of the rebellion broke out he had a contract to build the new Capitol in Sacramento. He procured the passage of a bill annulling that contract in order that he might take arms in defense of the Union. He raised a regiment and marched to Utah. The Mormon authorities met him near Salt Lake city and warned him not to enter there. He replied, "My orders direct me to march into your city and into your city I will go." Suiting the action to the word, he marched into the Mormon capital. Brigham Young, determined to harass him, put some of his soldiers in jail. The General asked that his men be released. Brigham quibbled and held the men in custody. Connor trained a battery of guns upon the Lion House and sent word to the Latter Day Chieftain that he would rattle his house about his ears if his men were not released. Discretion being the better part of a Danite's valor, Brigham set free his soldiers, instantaneously. Brigham issued an edict against prospecting for precious metals in Utah; Connor promulgated a general order to his men that they might, when not on duty, prospect when and where they pleased!

Connor is evidently a soldier clear through.

SHOOTING AFFRAY IN EUREKA.

In EUREKA, June 17th.—At about 9:30 o'clock on Sunday night, on the arrival of the train from Palisade, Ed. Rickar, conductor on the Eureka and Palisade railroad, was shot by Alf. Chartz, one of the lessees of the Eureka Republican newspaper. The difficulty occurred in front of the International hotel just as the bus drove from the depot. Rickar was on the bus and Chartz seems to have been lying in wait for him. The difficulty grew out of personal items in the *Republican* which were distasteful to Rickar. He had requested the publishers of the paper to cease the publication of his name, but they would not nor did not desist. On Saturday reference was made to the forthcoming marriage of Rickar to a young lady of Eureka. This exasperated Rickar, and he sent a note to Chartz saying in substance: "You crooked-legged son-of-a—" if you allow my name to go into your dirty blackmailing sheet again, I will churn you until you can't see." This note was sent Sunday morning. During the day Chartz showed the letter to several parties, and talked of a difficulty with Rickar on his return from Palisade in the evening. As the bus drew up Rickar, who was on the outside, jumped to the ground. He was immediately accosted by Chartz and some words passed about a settlement of the affair. Rickar said, "We will settle it right here," and began to take off his coat, when Chartz drew his pistol and fired, the ball taking effect in Rickar's left breast and lodging in the spinal column. Chartz gave himself up. Rickar was one of the most popular men in the county. He was to have been married in two weeks. Rickar had no weapon of any kind when shot. Rickar died at 10:40 P.M. on Monday night.

THE BANNOCKS.

More Depredations - Howard's Movements - The Troops.

BOISE CITY, Idaho, June 18th.—General Howard left Camp Lyons this morning for Malheur. It is his intention to proceed up the Malheur with Stewart's three companies of cavalry and be prepared to head off the hostiles if they attempt to escape in that direction. With Bernard and Whipple on the other side, and Egbert's company of 150 men in Jordan Valley, where they are expected to arrive Tuesday night; an effort will be made to corral the savages. There are however, nearly 700 Indians on the war path. Including Bannocks, Nez Perces, Shoshones and Piutes, and there is no telling now what the result of the contest may be.

CARSON APPEAL.

DISPOSITION OF TROOPS.

Major Stanford's command, consisting of three companies of cavalry, now in the vicinity of King Hill, will come to this place, where they will join the company of cavalry commanded by Captain Bendi, when the whole force will move toward the crossing of the Malheur, under General Grover.

The California troops now at Duck valley, who left the railroad at Elko, under command of Colonel Adams, are ordered to Sheep Ranch, and will form the left wing of the army.

General Crook's forces are on the way from Fort Hill to the Big Camas Prairie, and are expected to take care of that part of the field.

Camp Lyon is made a sub-depot for supplies, while Fort Boise is the general supply depot.

General Howard's movements would seem to indicate that the Indians have moved north, and are to be found near Malheur. It is said the General is determined to wipe out in this campaign the stigma cast upon him by the failure of the Nez Perces campaign, and he has certainly, thus far, displayed great energy and earnestness.

The Indians are reported to be burning buildings at Stein's mountain, and committing other depredations. A large number of Piutes are held as prisoners on account of their refusal to join the hostiles. Leo Winnemucca is reported killed.

The settlers at White Horse are hourly expecting an attack from the hostiles.

The Indians made a raid June 18th, on Burnt river, near Express Ranch, capturing a large number of horses.

HARNEY, OREGON, MENACED.

PORTLAND, June 17th.—A dispatch received here at a military headquarters state that about 500 hostile Indians have started toward Camp Harney, in this State, and that they are receiving accessions as they march. General Howard has given instructions to send Miles' command, now en route to Harney, on with all possible haste. From dispatches heretofore received the present order had been anticipated, and a messenger was dispatched on Saturday with instructions to ride post haste after Miles, and inform him of the present condition of affairs and the great necessity for haste.

Washington Notes.

The House concurred in the Senate concurrent resolution declaring that the treaty with China allowing unrestricted immigration to this country should be modified and calling the attention of the President to the subject.

A bill authorizing the appointment of a delegate to the House of Representatives by a council of Indian tribes was referred.

The Senate amendments to the bill to carry into effect the provisions of the treaty of 1858, between the United States and China, and give the Court of Claims jurisdiction in certain cases, was concurred in.

The Senate June 18th, passed a resolution to extend the session until six o'clock Wednesday evening.

The Senate resolution extended the time for the final adjournment until Wednesday at 6 p. m. was concurred in by the House.

The Senate has confirmed Jessie E. Wheeler, of Minnesota, Register of the Land Office at Fargo, Dakota; Wm. H. Wasson, of Illinois, Indian Agent at Fort Flandreau agency, Dakota; Asa D. Baker, of New York, for Red Lake agency, Minnesota, and S. S. Lawson, of Illinois for the Mission agency, California.

The Senate has confirmed the nomination of Edward F. Taylor, Register of the Land Office at Sacramento.

In consequence of the failure to obtain a two-third vote in the House for a motion to pass the bill, under suspension of the rules, to pay the fisheries award of the Halifax Commission, the Senate will insert an amendment to effect that purpose in the sundry civil appropriation bill. This amendment can be concurred in by a simple majority vote of the House.

Who Should Pay.
Speaking of the Bannock war the Eureka *Sentinel* says: "The sending of arms and troops to the northern boundary of the State will call for some relief bills at the next session of the Legislature. The White Pine Indian war cost the State about \$18,000. This Bannock war may involve quite as great an outlay. But the State treasury is plethoric and will be able to stand it. Notwithstanding General Clarke's late showing for Governor Bradley that the State is on the verge of bankruptcy, there will be three-quarters of a million in her vaults at the meeting of the Legislature. What blatant knaves there are in this world, to be sure. In strict justice the Federal Government, and not the State, should meet the expenses of these Indian wars." We agree with the *Sentinel* that it is too bad for the general government to insist on the State's paying for Indian wars, brought on by its corrupt and dishonest officials.

NEW TO-DAY.

FELLOWS'

Compound Syrup!

—OR—

HYPOPHOSPHITES.

THIS DISCOVERY

Is the result of a series of Scientific Experiments based upon the theory that "for the successful cure of existing Diseases, the nervous system must be made vigorous and healthy."

One of the first symptoms of disease affecting either the Liver, Lungs, Heart, Stomach, or Genital Organs, is a loss of nervous power. This discovery makes relaxation, weakness, and emaciation of all the organs which depend for health or involuntary muscular action, the weaker suffering first.

The Inventor, acting upon this idea, that the muscles and nerves depend upon each other for efficient strength and action, and that they may be treated as such in order to rapidly and permanently cure disease of the organs which they control, became convinced, after months of experiment, that no other preparation contained so potent and direct effect upon the nervous system as his.

Compound Syrup of Hypophosphites and except in cases of actual organic loss, that it will restore patients suffering from those maladies.

Among the diseases overcome by the use of this remedy are the following:

Chronic Constipation,
Chronic Dyspepsia,
Asthma,
Chronic Bronchitis,
Consumption,
Chronic Diarrhea,
Chronic Laryngitis,
Melancholy,

Nervous Debility.

Debility, resulting from Typhoid and other low fevers, Diphtheritic Prostration, Hysteria, Hypochondria, Nervous Excitability, Marsupial Wounds of the Mouth, Throat, Ear, or Loss of Voice, Sluggishness of the Liver, Interrupted and Feeble Action of the Heart, SUPPRESSING FEELINGS caused by mucous obstruction of the Lungs and Air Passages leading to Throat and Debility for various causes.

Weakness and Debility, and habitual debilities almost always arise from weakness of the muscles and nerves of the stomach and bowels. In such cases, Fellow's Compound Syrup of Hypophosphites has proved itself of the greatest service by placing healthy peristaltic action of the intestines. The evacuations soon become copious and healthy, without producing the effect of purgative medicine.

Weakness of the Joints and Muscles, IMPURITY OF THE BLOOD, and INWARD CONSTICTION may be cured by attention to the regular described doses, and by due regard to the habits of life.

FELLOWS'

Compound Syrup of Hypophosphites

The power of arresting diseases displayed by this preparation is honorably acknowledged by the medical faculty in every section where it has been introduced, and the large sale is the best guarantee of the estimation in which it is held by the profession.

This syrup will cure PULMONARY CONSUMPTION in the first and second stages, will give great relief and prolong life in the third. It will cure ASTHMA, BRONKHITIS, LARYNGITIS and COUGHS. It will cure all diseases originating from want of MUSCULAR ACTION and NERVOUS FORCE.

Sold by all Druggists.
